Award for Dilligence	**Outstanding or Excellent Academic Achievement Award for 3 Consecutive Years**

From the Principal's Desk

If you want the rainbow, you need to put up with the rain.

Dear parent

DAV NUPPL Public School, is in its budding stage and since its inception eight months back, it has been striving hard to provide its students a nurturing as well as growth-oriented environment. The vision of the school guardians to provide competent 21st Century education amalgamated with ethical and moral values now seems to be shaping into a winsome reality despite all the challenges being faced due to the virtual classrooms concept.

Education is all about making the targeted learning happen by wiring it with the concepts and activities that interest the students. The children should feel related to what they are acquiring at school. That's what our ambassadors of learning do – they are able to make their disciples believe in the relevance of the content they are nourished with.

Through offering professional development opportunities and support services to teachers, as well as by creating an environment where teachers are able to experiment, innovate and lead, a healthy environment for educators that will have positive repercussions for students is ensured.

This Planner is a guide for our dear students to take them through the journey of their present curriculum and we wish all the best to them for all their efforts directed towards learning.

With warm wishes

Priyanka Gaur
Principal
