Dear children, examination is the time to trust yourself completely. You know more than you think you do. Just take on your challenges and dig deep within to conquer fears. Remember great vision, self-belief, hard-work, determination and dedication always earns success. So, with full faith in your abilities, go through your learning content well. Feel free to discuss your doubts with the subject teachers concerned. It is good mental & physical health that will assist you in the achievement of your goal. So, avoid stress by being organized. Make a time-table with the help of your elders. Avoid sitting continuously and take short breaks. Break time may be spent qualitatively with the family members. Try to do your best but remember that it is not final. Growth is an ongoing process and you have a long way to go. Taking care of your eating habits and rest is equally important. Eat healthy food and avoid eating junk food and overeating. Include more healthy liquids in your diet. Ensure having a sound sleep. Do engage yourself in yoga every day. Certain little changes will definitely take you towards the desired direction.

**“Everything you want is out there waiting for you to ask.  
Everything you want also wants you.  
But you have to take action to get it.”**

- Jules Renard

Wish you all the Best !
